Project 2-1: Student Registration

Create a program that allows a student to complete a registration form and displays a completion message that includes the user's full name and a temporary password.

Console

```
Student Registration

First name:    Eric
Last name:     Idle
Birth year:    1934

Welcome Eric Idle!
Your registration is complete.
Your temporary password is: Eric*1934
```

Specifications

- The user's full name consists of the user's first name, a space, and the user's last name.

- The temporary password consists of the user's first name, an asterisk (*), and the user's birth year.

- Assume the user will enter valid data.

- Save the file with the filename registration_XXX.py where XXX is either your initials or your last name.
